

## Year 9 Textiles

### Semester 1 TT561 Year 9 Fun In The Sun

Through the use of books, videos and the web the students will look at the different stages of design. They will be taught about sources of fabric and fabric properties. This unit will focus on the production of textile items suitable for wearing in the sun. Students will learn how to operate sewing equipment and utilise taught skills to produce textile items

### Assessment

Assessment will be in the form of a beach bag, round beach towel, swimwear, beach kaftans OR sarongs design challenge and an accompanying process journal.

### Semester 2 Year 9 TT562 Sweet Dreams Are Made Of These!

In this unit students will explore properties and performance of a range of textile items through fabric experiments. Students will be taught basic sewing skills and safety in the sewing room. Students will learn how to use a commercial pattern to produce night wear.

### Assessment

Assessment will be in the form of a night wear design challenge, final presented product and an accompanying design folio. A theory test based on theory covered in the unit may be done.
